RE: Application for Permit #65-22942

Mr. Westra:

We have reviewed the pertinent documentation (Pre-Hearing Conference Meeting Notes, 7/6/2005 and the letter from Roger Belau dated 8/1/2005 forwarded by the Department of Water Resources) associated with our permit. We agree to Roger Belau's suggestion to amend our application to restrict our uses as follows:

Irrigation diversion to storage 11/01 thru 6/15
Irrigation diversion from storage 4/01 thru 10/31
The amended application is attached.

In response to the two questions submitted:

1. Will the proposed application injure other water rights? No. By limiting our water usage from the creek after 6/15, we will not be removing water from the creek during low water periods.
2. Is the proposed water supply sufficient for the purpose sought? Yes. We will be using water from the creek during adequate water periods.

It is our understanding that the amended application will be re-advertised as a public notice. Attached is a check for \$50 fee for this purpose.

It is our understanding that Roger Belau will remove his protest as long as we amend our application for the permit as outlined above.

Thank you very much for your efforts and time in this matter.

Don and Pat Basso

RE: Application for Permit #65-22942-Basso

Dear Mr. Westra:

I have reviewed our Pre-Hearing Conference Meeting with our protestant group relative to the Basso's Application. We feel Mr. Basso's proposal of utilizing a storage tank during water short periods in the creek/curtailment has merit. The Basso's would amend their application to reflect additional uses as stated in your Pre-Hearing Conference Notes ie:

irrigation diversion to storage 11/1 thru 6/15
irrigation diversion from storage 4/1 thru 10/31

This would make the curtailment period 6/15 thru 10/31, and any irrigating would be from storage 4/1 thru 10/31.

Please advise the status of this application.

Sincerely,

Roger Belau
