PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 81-11981

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use(s) of the water.

During my review of your proof and permit, I found that according to condition of approval paragraph no. 3 and 4 of this permit that, "Prior to diversion of water under this right, the right holder shall install and maintain acceptable measuring device(s), and a lockable device..." Also be aware of condition no. 5, which refers to fish screens or fish passage requirements. I recommend that these conditions of the permit be completed before the field examination is conducted.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov

If you have any questions regarding my review of your permit, call me at (208) 287-4942. If you have questions concerning the field examination or the conditions of the permit, please contact the Northern Regional Office of the department in Coeur d'Alene at (208) 762-2800.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau
