RE: Hansen Permit Nos. 65-13933, 63-31261, 63-12569 and 65-23072

Dear Shelley,

Enclosed on behalf of Dan and Karen Hansen, are Beneficial Use Field Reports for the following permits:

1. 65-13933 – Hansen Irrigation
2. 63-31261 – Hansen Irrigation
3. 63-12569 – Hansen Domestics
4. 65-23072 – Hansen Irrigation (Helsley Property)

Attached to the field report for permit 65-23072 is the associated signed Proof of Beneficial Use form.

Attached to the field report for permit 63-31261 are the associated signed Proof of Beneficial Use form and an Amendment of Permit form. The amendment is for the addition of dust control use found during the field exam. Because less acres were developed than permitted, the amount of water used for dust control does not exceed the original permit parameters regarding water quantity. The dust control use was established during the permit development period.

Proof of Beneficial Use forms have been previously submitted to IDWR for permits 63-13933 and 65-12569 with filing fees totaling \$325. Since SPF conducted the field examinations, proof fees are not required for these permits. Please refund \$325 to Dan and Karen Hansen.

Please let me know if there are any questions concerning the enclosed reports.

Sincerely,

Lori Graves
Water Rights Specialist
