Re: Transfer Evaluation

This transfer proposes to add 2 wells as points of diversion to the system, and to add all of the points of diversion in the system to all the water rights because the system is completely inter connected.

Authority to File:

IDWR records indicate the applicant is the owner of the water right to be transferred, and Falls Water Company INC is incorporated in Idaho. K Scott Bruce is the general manager of Falls Water CO. INC. and is authorized to sign on the companies behalf.

Water Right Validity:

These water rights were partially decreed 9/10/2005.

Injury to Other Water Rights:

The transferred water rights are contained within water district 120. Watermaster will comment.

Transfer will be advertised to determine any protests.

All wells are within the same ESPAM grid cell, analysis is not possible.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
