Subject: Permit No. 63-12550

Mr. Harris,

Scott King with SPF Water Engineering has asked me to estimate the total volume of water that I divert under permit 63-12550. The amount diverted varies depending on river flows. When flows are available, I typically divert the full authorized rate, and it is my intent to divert the full quantity year-around when flows are sufficient.

I hope this answers your questions. If you have any further questions, please contact Scott King as you have before.

Sincerely,

Richard Porter
