Subject: FYI - Cantrell & Water Bank 2006 re pending transfers for 2-202A & 57-7100

Cynthia:

Ted Cantrell called today. He plans to work with Dana Hofstetter to probably seek another year of water bank approval to irrigate while his two transfer applications are pending for these rights from Snake River & Shoofly Creek. Western completed some "preliminary processing" of the applications (legal notice without any substantial review) based on authorization for that by our administrator to relieve some pressure caused by our "transfer processing delay" initiated last July.

Legal notices were recently concluded without protests. Transfer processing is stayed pending completion of the SRBA objection period. It's doubtful if the transfer decisions can be issued by IDWR before the end of the 2006 irrigation season.

Please let me know if need more information in processing any water bank application for this irrigator.

Steve
