

PRELIMINARY TRANSFER PROCESSING

Transfer Applications marked as "preliminary transfer processing" are taken from the transfer hold drawer for limited processing that include these advertising steps:

1. Regular advertising and comment letters.
2. Regular folder preparation (label etc.) and Apps.lis updates except no transfer application number yet.
3. Scan the application to the lowest water right number listed in the application. Nothing else has to be scanned yet.
4. If protested, a special protest acknowledgment letter will be needed. Let me know if one gets protested and we can figure out what kind of letter to send.

T. 73775
