From: Shelley Keen 
Re: Annual Volume Limit

The field examiner used a season of 304 days to calculate an annual volume. The permitted season of use was actually 183 days. I am drafting the license with an annual volume based on 183 days of use. Also, the field examiner used 800 head of range cattle, but the permit was for 880. I am using 880 to calculate the annual volume limit
