DEPARTMENT OF
February 7, 2008 WATER RESOURCES

David R Durrant

Lydia Ann Durrant

Husband and Wife Hammett Idaho, We purchased from Keith Chamberland in January of 2007 a parcel of property .

Enclosed is the paper he gave me with this transaction, I was told that I need to inform you as to what I have done to show that I need this amount of water. I have started putting in some table grapes. The Dept. of Agriculture has been helping me and has been very helpful in getting started with them. We have put in about 1 ½ acres so far. We are using a drip irrigation system on them and there by using a very small amount of water.

What we are wanting to know is what is required to prove beneficial use? And what is require to do so?

THANK YOU

David R Durrant
