Re: For completing Permit 95-9085 to a license appropriate the Public Waters of the State of Idaho.

At this time the Department of Idaho Water Resources (IDWR) is in the process of licensing the Permit # 95-9085 however, before the process can be completed and additional information will be needed.

Please review and outline location on attached map of the land that you are going to use (POU), plus review the location of the point of diversions (POD) 3 wells on the attached map. The outline on the map must be accurate to indicate the POU of irrigation, domestic (9 homes).

Once the department receives this additional information, the processing of this license can continue. If you have any questions, please call me at 208-762-2800 or email me at eric.davis@idwr.idaho.gov Please respond IDWR within the next 14 days.

Sincerely,

Eric Davis
Senior Water Resource Agent
Northern Region
