

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of Applicant THE ORCHARDS AT EAGLE LLC Phone (208) 345-8761
Mailing address 802 W BANNOCK, SUITE 801, BOISE, IDAHO 83702
2. Source of water supply Ground Water which is a tributary of _____
3. Location of point of diversion is Township 4N Range 1W Sec. 11, in the _____ ¼,
SE ¼, SE* ¼, Govt. Lot _____, B.M., Ada County;
additional points of diversion if any: *two wells at 4N, 1W 11 SE SE.
4N 1W 14 NE NE (two wells and three ponds).
4. Water will be used for the following purposes:
Amount 0.26 acre-feet for irrigation storage purposes from 3/1 to 11/15 (both dates inclusive)
(cfs or acre-feet per annum)
Amount 75 acre-feet for aesthetic storage purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount 0.20 cfs for diversion to storage purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 0.20 cfs and/or (b) 75 acre-feet per annum
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Describe type and size of devices used to divert water from the source Up to three existing and one new well will divert to ponds for storage. A pumping station will divert from the large pond to the subdivision's pressurized irrigation system.
 - b. Height of storage dam none feet; active reservoir capacity _____ acre-feet;
total reservoir capacity _____ acre-feet
 - c. Proposed well diameter is 6 inches; proposed depth of well is 150 feet
 - d. Is ground water with a temperature of greater than 85°F being sought? no
 - e. If well is already drilled, when? unknown; Drilling firm unknown for existing wells;
Well was drilled for (well owner) unknown; Drilling Permit No. unknown
7. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year)
8. Description of proposed uses (if irrigation only, go to item 9):
 - a. Hydropower; show total feet of head and proposed capacity in kW. _____
 - b. Stockwatering; list number and kind of livestock. _____
 - c. Municipal; show name of municipality. _____
 - d. Domestic; show number of households. _____
 - e. Other; describe fully. irrigation storage and aesthetic storage

RECEIVED

WATER RESOURCES
WESTERN REGION

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
4N	1W	14	J																

Total number of acres to be irrigated _____

10. Describe any other water rights used for the same purposes as described above. No other water rights for the same purpose. Water right 63-4315 provides irrigation supplies. Permit 63-32258 provides domestic use for the proposed subdivision.

- Who owns the property at the point of diversion? applicant
- Who owns the land to be irrigated or place of use? applicant
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

12. Remarks: This application proposes diversion of ground water for aesthetic and irrigation storage in three ponds within a proposed subdivision development. The primary pond will be unlined and will naturally intercept ground water. Two small ponds will receive water from the primary pond. A pumping station will divert from the large pond to serve irrigation requirements within the subdivision using water right 63-4315. Existing artesian wells and/or a new well will divert ground water for irrigation supply and to maintain pond levels (i.e. replace evaporative losses). The proposed ponds will have a total surface area of 3.7 acres, total storage volume of 75 acre-feet, maximum depth of 30 feet, and water bearing zone from 0 to 30 feet. A corresponding transfer on 63-4315 proposes changing the nature of use from 3.7 acres of irrigation to ground water recharge to offset the evaporative consumptive use of 3.7 acres of pond surface area. Irrigation storage of 0.26 acre-feet is the 24-hour volume associated with the 6.3-acre irrigation use portion of 63-4315.

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.

 Signature of Applicant (and title, if applicable)
