Good Morning Vicky,

I spoke with Jennifer Succo with S.P.F.water eng.,that is where the first map came from she is working on a revised map with correct locations and also putting the full acreage and building locations I hope .you should be getting that real soon I spoke with her last Friday and she said it wouldn't be a big deal,we will see.She should copy both of us but if you get something let me know just in case she didn't copy me and I will do the same .Thanks again for your help in this matter .

Have a great day
 Bob

yes, I do need a corrected topo because the site map is still not clear as to the seccion. So, we need a large map that provides the correct place of use and correct well locations. Thanks. Vicky

Correct,and If you look to the far north west corner of the enlarged site plan you will see the correct location of the existing well. so from that if you look to the overall site plan you will see it location in reference to the full area of the schools property .With that will you still need a topo map with the wells location ?Let me know and I will get whatever you need.Thanks for your time

Have a great day
 Bob

Hi Bob -

the site plan is very helpful - thank you. Am I correct that the locker room and concession stand are the 2 small rectangles south of the football field, and the wastewater treatment building is a little farther south of the locker

1/22/2008

room/ concession stand?

Thanks - Vicky Music

Good Morning Vicky ,

Well here is a start it is the newest site plan for our new school with all existing buildings and the existing well also .I am working on a topo map with the actual property lines on it so I can locate the well in the correct location. When you get time to look at this let me know what you think.

Have a great day

Bob
