RE: Two (2) Transfer Applications for: 36-8415, 36-15535.

Dear Corey:

Enclosed are two (2) transfer applications in the name of Rodney A. and Shirley S. Jentzsch. The sole purpose of the two transfers is to exchange 17 acres of 36-8415 with 17 acres of 36-15535. Total acreage for each water right will not change after these transfers are approved. Water right 36-8415 currently irrigates 41 acres from one point of diversion in T.09S R.24E. Sec. 1, and has a priority date of 03/21/1989. 36-8415 is in the name of Darrell James Baker, although the land appurtenant to 36-8415 was quitclaimed to Rodney A. and Shirley S. Jentzsch in 2006. An application for change of ownership for 36-8415 was submitted with a 2/26/07 transfer package to place 36-8415 into the names of Rodney A. and Shirley S. Jentzsch. Water right 36-15535 currently irrigates 38 acres from five points of diversion within an existing 1201 acre permissible place of use in T.06S R.24E, Sec. 33, T.07S R.24E, Sec.1, and in T.07S R.25E Sec's 5, 6. Water right 36-15535 and has a priority date of 03/15/1962.

All points of diversion under the two water rights occur in three different ESPA ground water model cells. When two separate model input data sets were run, combined spreadsheet modeling results showed percent changes in effects due to the transfers on all four individual reaches of the Snake River, were less than 5%. Model results are included in this packet.

We have also included a limited power of attorney agreement to cover these transfers, a quitclaim deed for 36-8415, a cover sheet for transfer # 71476 to show 36-15535 is owned by Rodney A. and Shirley S. Jentzsch and one check from Brockway Engineering for the amount of \$500.00 U.S. dollars. Please copy our office on all correspondence regarding these water right transfers. Thank you for your assistance and clarification on this matter and if you have questions or comments, please don't hesitate to call.
