**Subject:** RE: Jentzsch Transfer Application Changes- #'s 73722, 73724, 73726

Zach,

The proposed changes and map look good. I made the appropriate changes to the respective applications to reflect your e-mail request. As we discussed, I have to split some of the rights prior to the transfer process in our computer system in order to process a right in more than one transfer application at one time. For the Jentzsch transfers, I split right 36-16170 into rights 36-16550, 36-16551, and 36-16552 and I split right 36-8415 into rights 36-16553 and 36-16554. Right 36-15535 will be split and renumbered into 36-16556 and 36-16555 via the transfer process. The following should summarize each of the proposed transfers....

- Transfer # 73721 will take all of right 36-8624 and move it into the 160 acre PPU.
- Transfer # 73722 will take all of right 36-16550 (new portion of 36-16170) and move it to the 12 acre PPU.
- Transfer # 73723 will take all of right 36-16553 (new portion of 36-8415) and all of 36-16552 (new portion of 36-16170) and move them into the 160 acre PPU.
- Transfer # 73724 will take all of right 36-16551 (new portion of 36-16170) and move it into the 42.1 acre PPU. *Note that the portion of 36-8415 (now 36-16554) is not included in this transfer since it is subject to transfer #73725.*
- Transfer # 73725 will take all of right 36-16554 (new portion of 36-8415) and move it into the 1201 acre PPU.
- Transfer # 73726 will take right 36-15535 and split it into 36-16556 which will be moved to the 42.1 acre PPU and leave 36-16555 (leftover portion of 36-15535) in the 1201 acre PPU.

I will continue to proceed in this direction, and will let you know if I run into any other issues.

Corey

**Subject:** Jentzsch Transfer Application Changes- #'s 73722, 73724, 73726

Corey,

Please see below for the changes we would like to make to the following water right transfer applications:

- Transfer # 73722: Regarding water right 36-16170. After looking at the place of use, page 1 of part 1 should propose a 12.0 acre permissible place of use in T.09S R.24E SEC.1 NE ¼ SE ¼, with 10.6 acres authorized to be irrigated in that 12.0 acres.
- Transfer # 73724: Regarding water rights 36-16170 and 36-8415. The place of use as described on page 1 of part 1 should be proposed as a 42.1 acre permissible place of use, with the following acres assigned in T.09S R.24E SEC.1: 2.4 acres in the SW ¼ NE ¼, 32.7 acres in the SE ¼ NE ¼, 5.8 acres in the NE ¼ SE

2/1/2008

¼, and 1.2 acres in the NW ¼ SE ¼. The amount of authorized acres to be irrigated within the 42.1 acre PPU should remain the same at 24.0 acres.

- Transfer # 73726: Regarding water right 36-15535. The place of use as described on page 1 of part 1 should be proposed as a 42.1 acre permissible place of use, with the following acres assigned in T.09S R.24E SEC.1: 2.4 acres in the SW ¼ NE ¼, 32.7 acres in the SE ¼ NE ¼, 5.8 acres in the NE ¼ SE ¼, and 1.2 acres in the NW ¼ SE ¼. The amount of authorized acres to be irrigated within the 42.1 acre PPU should remain the same at 17.0 acres.

I have also included a map showing the proposed place of use for all 3 transfers listed above. Feel free to give me a call with questions or comments as you continue to process these water rights transfer applications. Thanks for your time and help.
