Re: Transfer Evaluation

This transfer proposes to move water to cover area under two pivots. Corners will be dried up to ensure that there are not enlargement issues.

In the Adjudication Water Right 74-27 was split into two rights, 74-15752 and 74-15753. When these two were split there appears to be an arithmetic error. 74-27 was for 225.2 combined use acres and after the split the two parts were 221.2 and 3, which equals one less acre. So one combined use acre was added to 74-15752 to reflect the un-split amount.
