Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Mr. Oswald:

As per our telephone conversation on October 25, 2007, I have enclosed an electronic version of your application along with a copy of your original. Please review the application and if it's correct, please sign it on the space provided on page #3.

I also enclosed a copy of your well permit. Please note that in line item #4, the driller marked domestic only. This means the driller bought a \$75.00 well permit, which is mainly for a single family home. Like we talked, when more than one home is supplied from a single well that includes irrigation, the well driller should have purchased a \$200.00 well permit. To process your permit, that includes an irrigation component, the department will need an upgrade fee of \$125.00 for the well.

Please return the signed electronic version of your application, along with the well upgrade fee as soon as possible so as not to delay the processing of your application. If you have any questions, don't hesitate to contact me at this office.

Thank you.

Sincerely,

Keith E. Franklin  
Senior Water Resources Agent
