10. Remarks:

Rob Davison is willing to do the well. We are not sure where it would be, we have not had it witched yet. Well will be cased through the first confining layer to avoid appropriating shallow ground water hydraulically connected to the Weiser River. Therefore, the proposed use should not need to be regulated by the Weiser River Watermaster (no June 15 curtailments of proposed use).

11. Map of proposed point of diversion and place of use attached? [X]

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.
