RE: Water Right Permit Nos. 67-2365, 67-7281, and 67-7292

Dear Mr. and Mrs. Cada:

The Department of Water Resources is reviewing the permits referenced above prior to issuing water right licenses. The permits were issued to Frank Land and/or Treva Land. However, IDWR understands that you now own the land where the water use authorized by these permits was established.

By issuing licenses, the Department confirms the extent of development that has been established in compliance with the terms of the permits. The examiner who verified the water use reported that certain elements of the permits have been developed differently than described on the permits. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before licenses can be issued, the permits must be amended to depict the water use as it was actually developed.

Based on the examiner's reports, the following elements were developed differently than described on the permits:

- ☒ Point(s) of Diversion
- ☒ Place(s) of Use
- ☐ Other

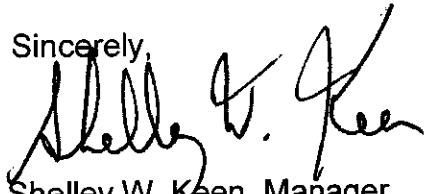

The enclosed Application for Amendment forms depict the elements of the water rights as they will appear on the licenses when they are issued. Please review the amendment forms carefully. If you concur with the information presented, please sign the forms and return them with the \$150.00 (\$50.00 each) filing fee within 14 days.

Please note that the amendment forms show the Lands as the owners because permits are personal property, and they have not been assigned to you. However, when the licenses are issued, the water rights will become real property appurtenant to the land where they are used. Therefore, the licenses can be issued in your name.

Letter to Mr. and Mrs. Cada
October 18, 2007
