RE: Water Right Permit No. 65-07573

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

 X Point(s) of Diversion

 X Place(s) of Use

 Other

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

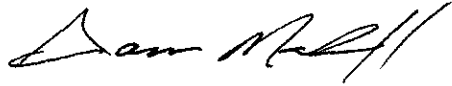

Additionally, the examiner identified that water right nos. 65-4059 and 65-7290 divert water from the same points of diversion as water right permit no. 65-7573. If any part of these two water rights needs to be modified to reflect actual use that differs from that described by the water right, please submit a transfer application to correct those rights.

The examiner also determined that water right permit no. 65-13013 was not developed and should be cancelled. Please complete and return the enclosed Relinquishment of Permit form if you concur with this determination. If you believe water was applied to beneficial use under the permit at the time proof of beneficial use was submitted for use not covered under water right no. 65-7573, please provide evidence that such

development occurred. Upon receipt of such evidence, the Department will reevaluate the extent of beneficial use and may reconsider the examiner's recommendation for water right permit no. 65-13013.

If you have any questions, please call me at (208) 287-4943.

Sincerely,

A handwritten signature in black ink, appearing to read "Aaron Marshall". The signature is fluid and cursive, with the first name "Aaron" written in a larger, more prominent script than the last name "Marshall".

Aaron Marshall
Senior Water Resource Agent
