Re: Application for Permit No. 77-14274

Dear Sheri or Terry Gestrin:

This office received your Application for Permit seeking a water right. Upon review of your application, there are a few areas of the application that need correction. I have amended your application to reflect the corrections as discussed with Terry during our phone conversation earlier today. One additional amendment needed to your application, which I overlooked during our conversation earlier, is the QQQ listed for the point of diversion description stated on your application. You have the point of diversion as being in the NE NE NE Sec. 6 T23N R8E. However, your map displays it in the SE NE NE Sec. 6 T23N R8E. The QQQ is not required for the point of diversion legal description on an Application for Permit, unless the source is a spring. Since the QQQ is not required, I have amended your application to state the point of diversion will be in the NE NE of Sec. 6 T23N R8E. I have enclosed an Application for Permit with the amendments for your signature as we discussed. Please review the content of this application. If there are any areas you wish to change, please feel free to correct this application before you sign and return it to me for further processing.

Please submit the signed amended application to allow for further processing of your water right permit application. Your response, or a request for more time to make your response, must be received within 30 days from the date of this mailing. The application will be voided without a timely written reply.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Angela M. Grimm
Water Resource Agent

Enclosure(s): Amended Application for Permit for your signature

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public water of the State of Idaho

1. Name: SHERI J GESTRIN
