Re: Application for Permit No. 67-14859 and Well Drilling Permit fee upgrade

Dear Judy Huston:

This office received your Application for Permit seeking a water right. Upon review of your application, there are a few areas of the application that need correction. I have amended your application to reflect the corrections we discussed during our phone conversation earlier today. I have enclosed an Application for Permit with the amendments for your signature. If there are any areas you wish to change, please feel free to correct this application before you sign and return it to me for further processing.

Additionally, this water right application proposes ground water use from a well. All wells drilled in Idaho after June 30, 1987 require well drilling permits. A \$75 drilling permit covers a well that does not require water right approval from IDWR. This is typically a single-family domestic well. The proposed use from your well requires water right approval, and your water right application seeks that approval. The well drilling fee for a well requiring a water right is \$200 instead of \$75. According to Department records, the well proposed for use in association with this water right application was drilled in 1997 under a \$75 domestic well drilling permit. IDWR must collect the unpaid balance of \$125 for a well drilled under those circumstances.

Please submit the signed amended application and the applicable well drilling permit fee upgrade. Your response, or a request for more time to make your response, must be received within 30 days from the date of this mailing. The application will be voided without a timely written reply.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Angela M. Grimm
Water Resource Agent

Enclosure(s): Amended Application for Permit for your signature
