MEMORANDUM

FORM: Eric Davis
DATE: October 23, 2007
RE: Water Rights Processing
Permit # 96-9328

This application of permit was advertised in the newspaper at Bonner County using the Priest River Times paper for two consecutive weeks on August 15th and 22nd. The point of diversion legal location was correct but the place of use was advertised with the wrong section number and quarter section. The application was data entered off the information provided by the applicant and the office picked up this error after advertising. I had the Northern Regional Manager Bob Haynes review this topic. Bob devised that this application does not need to be re-advertised because the point of diversion was correct as advertised.
