RE: App For Transfer 73737, Stephen Schmid

Dear Paul;

I have started reviewing this application, and have found a problem that needs to be addressed. My ArcView shape of this property only covers 25.7 acres, not 28.6 acres as shown on the application. A printout of my shape is enclosed. As you will notice, my shape does not include the former Molyneux property that was sold to the Highway Dept. Please confer with Mr. Schmid to determine where the rest of the 28.6 acres is located, and then mark it on the ArcView photo or on some other map so that I can modify my shape accordingly.

Please submit the necessary information by October 5 so that processing of this application can continue. If you need more time, it can be granted for sufficient cause.

Regards,

James E. Stanton
Sr. Water Resource Agent

An aerial photograph of a rural landscape. A red boundary line outlines a large, irregularly shaped field. The field is divided into several sections by a network of blue lines, likely representing property boundaries or survey lines. The field is mostly brown, suggesting it is either fallow or has been recently plowed. To the right of the field, there are several long, narrow, parallel ridges or furrows, possibly from a plow or a similar agricultural machine. In the bottom right corner, there is a date stamp that reads "SCANNEL JAN 24 2008".
