RE: Proof of Beneficial Use Deadline for Permits in the name of Charles Guess, nos.
77-14235 thru 77-14238

Dear Sir or Madame:

According to the Department's records for the above referenced water right permits, you filed a Notice of Change of Ownership on July 23, 2007. That change of ownership was not acceptable and was returned to you on September 21, 2007. Enclosed is a copy of Ms. Buffington's letter that explains the reason the forms were returned. The Department has not received a response to this letter and the permits remain in the name of Charles Guess. It is important that the change of ownership of these permits be completed, because the deadline for completion of the development and use of these permits is February 1, 2008.

I have enclosed four Assignment of Permit forms for filing with the Department. Your response is required to change the ownership of these permits. Please complete the Assignment of Permit forms for each permit, obtain Mr. Guess' signature on these forms, and file them with the Department along with \$25.00 for each permit.

Also enclosed for your information are copies of Proof Due Notice letters sent to Mr. Guess. These letters inform Mr. Guess that the development period for these permits are nearly over and instruct him to file additional information with the Department to maintain the permits' active status. Please read these letters and determine if the construction of these rights are complete, or if you need more time to complete them. It is important that the current permit holder file either a Proof of Beneficial Use or a Request for Extension of Time (for each permit) to maintain their active status. For additional information, please refer to the instructions that accompany the enclosed forms.

If you have any questions or need more information, please contact me at (208) 287-4942.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau
