Re: Watermaster Recommendation

Spoke to the Watermaster, Jerry Perry, Water District 75C, back in November 2007. He called the office after he had received the first Watermaster Recommendation form for the first batch of the Pope Ditch transfers. During that telephone conversation, he, Jerry Perry, stated that he would NOT comment on any of the Pope Ditch transfers due to the point of diversion had been moved back in 2001 and there was no need to comment.
