State of Idaho

License and Certificate of Water Right

Water License No. G-26734
 Water District No. _____

Amount 3.36 c.f.s.
 Priority January 31, 1957

OWEN F. JACKLIN

THIS IS TO CERTIFY that
 of Bishman, Washington, made application for a permit to appropriate the
 public waters of the State of Idaho, dated January 31, 19 57; that Permit No. G-26734
 was issued under said application; that Certificate of Completion of works, with a carrying capacity of
3.36 second feet, was issued thereunder on October 4, 19 62, showing that said works
 were completed on the 22nd day of January, 19 62; and that on the 22nd
 day of January, 19 62,

OWEN F. JACKLIN

of Bishman, State of Washington, made proof to the satisfaction of the
 State Reclamation Engineer of Idaho, of the right to use the waters of a well
 a tributary of subterranean flow, for the purpose of irrigation
 under Use Permit No. G-26734 of the Department of Reclamation
 and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
 and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
12 of Licenses at page 7474, on the 4 day of October, 19 62;
 The right hereby confirmed dates from January 31, 19 57;

The Point of Diversion is located
 in the SE 1/4 SW 1/4, Sec. 6, Tp. 50 N, R. 5 W, B. M. Kootenai County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
 aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
 not exceed 3.36 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
50 N.	5 W.	6	NW 1/4 SE 1/4	40	38
			SE 1/4 SE 1/4	32	32
			SW 1/4 SE 1/4	35	35
			NE 1/4 SE 1/4	40	38
			NW 1/4 SW 1/4	40	40
			SW 1/4 SW 1/4	40	38
			SE 1/4 SW 1/4	40	40
			NE 1/4 SW 1/4	40	40
		7	NW 1/4 NE 1/4	40	40
			SE 1/4 NE 1/4	40	29

95-2124

APPLICATION FOR PERMIT To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 34650
Permit No. G- 26734
District No.

1. Name of Applicant: Owen F. Jacklin
Postoffice address: Dishman County: Spokane State: Washington
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. 3.36 or Idaho
Miners' inches or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum 4
3. Source of water supply: Subterranean by dug well
4. Location of point of diversion or well is in the SE 1/4 of the SW 1/4 of Section 6
Twp. 50 N. , Rge. 5 W. , B.M., County of Kootenai
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the 1/4 of the 1/4 of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.
7. Kind of works: Dug well with deep well turbine and electric motor
8. Estimated cost of works: \$15,000.00
9. (a) Is reservoir to be used? None
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: See remarks.
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

I now have a water right on part of Lot 1 and 2 Section 7 Twp 50 Rnge. 5 W on approximately 55 acres for irrigation to the former owner, Lee Reynolds, Post Falls, Idaho. This water right is for pumping water from the Spokane River. Inasmuch as this right is for only a small part of the farm we would like to terminate this right and get a well more centrally located to irrigate the whole farm.

Remarks:

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

/s/ Owen F. Jacklin Applicant.

By Agent.

Date of first receipt at Department of Reclamation: 9:00 A. M. January 31, 1957

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is G 26734

Recorded in Book 94 Page 26734 Approved February 8, 1957

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ to be filed on or before

Work to begin on or before and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before August 8, 1959

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before February 8, 1962

Witness my hand this 8th day of February, 1957. MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, ROBERT E. SMYLIE , Governor of the State of Idaho, and JAS. H. YOUNG , Secretary of State of the State of Idaho, have caused this instrument to be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this...8th... day of February , 1957.

Countersigned: STATE OF IDAHO

RE: Permit Nos. G-26734, G-27210

Owen F. Jacklin
Dishman, Washington

Dear Mr. Jacklin:

We received your check for \$32.00 with two letters from this office.
The letters are returned herewith.

The check pays the fees for Permit No. G-26734, however there remains
the fees of \$5.00 for Certificate of Completion of Works, and of \$1.00
for recording the amendment under Permit No. G-27210.

Kindly remit \$6.00 total to this office.

Receipt No. G-7450 for \$32.00 is enclosed.

Very truly yours,

GEO. N. CARTER

Re: Permit No. G-26734

Owen P. Jacklin
Dishman, Washington

Dear Mr. Jacklin:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26734 shows the well is (~~now~~) capable of conveying 168 miner's inches, or 3.36 c.f.s. of water for the irrigation of 480 acres.

Upon receipt of the statutory fees, totaling \$ 31.00 , which consists of a Completion of Works fee of \$ 5.00 and License and Certificate of Water Right fee of \$26.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of January 31, 1957 to the use of 3.36 second feet of subterranean water with the point of diversion in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 6 for irrigation of 480 acres in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$, Sec. 6, Lots 1, 2, 3, & 4, N $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 7, T. 50 N., R. 5 W., B.M.

Since your permit does not include the S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 6 it will be necessary to amend the land list on the permit if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above.

If you do not want the extra land included, the statutory fees will total \$27.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

(Signed)

Lynn Johnson

Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No S.G-26734 & G-27210

Owen F. Jacklin
Distman, Washington

Dear Mr. Jacklin:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Courier d'Albany Press, all submitted in proof of completion of works and beneficial use on Permit No S. G-26734 & G-27210.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Permit No. _____

Proof of Application of Water to Beneficial Use
_____ and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. ✓ Owen F. Jacklin, Dishman, Washington Farmer, Seedsman

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-26734 and No. G27210 Priority date January 31, 1957

Ques. 4. State source of water supply and give exact location of point of diversion

Ans. Underground water supply from deep well at SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 6 T 50 N R 5 W
350 ft. North, 40 ft. West of SE corner SE $\frac{1}{4}$

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Deep well turbine, 250 HP Electric Motor to deliver 8.8 cu. ft. per sec. Pumps through 10 in. pipe into 2 - 8 in. pipes at average 60 lbs. pressure. The well is 152 ft. deep, 120 ft. to 128 ft. to water on various checks, has 26 in. steel casing in a hand dug hole, packed with crushed rock. Running up to 526 heads @ $7\frac{1}{2}$ gal. per min. each operating at 25 to 60 lbs. pressure on the line.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation on Lot 1, 2, 3, 4 and NE $\frac{1}{4}$ Sec. 7 SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 6 T 50 N R 5 W. 440 acres All farm land except 40 acres irrigated pasture.

Ques. 6-a. If this is a ground water permit, give name and address of person that drilled the well.

Ans. Dug well by E. J. Waller, Post Falls, Idaho

26734

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. _____

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All for irrigation during summer months.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. _____

G 26734

G27210

Permit No.

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Lee Roy Reynolds, 58 yrs, Post Falls, Idaho, Laborer
R#2 Post Falls, Idaho

Ques. 2. Are you acquainted with Owen F. Jacklin, the
 holder of Permit No. G26734 G27210? How long have you known him and where does
 he reside?

Ans. Yes 14 years Dishman, Washington

Ques. 3. Have you read or heard read said Permit No. G26734, G27210, and are you
 familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
 veying water from point of diversion to place of use.

Ans. Dug well, 250 HP deep well turbine pumps in SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 6 T 50 NR 5W

Ques. 5. How many second feet of water do you estimate said works will safely con-
 duct to place of use, and how much water have you seen being so conveyed?

Ans. 8.8 cu. ft. per second Same

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
 per minute have you seen the pump deliver, and how did you measure or estimate the
 amount?

Ans. 8.8 cu. ft. per second by irrigation head count

26734

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. All for irrigation on 440 acres on Lot 1, 2, 3, 4 and N $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 7 SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 6 T 50 NR 5W All cultivated land except 40 acres of irrigated pasture. It has all been watered in the past.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. All farm land planted to grass for seed production, requiring 8.8 cu. ft. per second

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No. I work for Jacklin Seed Co., Inc. who leases the land from Owen J. Jacklin.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Full use through irrigation system during the summer.

(Signed)

Lee Roy Reynolds

NOTICE OF PROOF OF COMPLETION OF WORKS

and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 2:00 P. M., on the 22nd day of January 1962, at Post Falls, County of Kootenai, State of Idaho, before G. M. Rollis, Notary Public, at (address) Post Falls, Idaho, proof will be submitted of the completion of works for the diversion of 3.80 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-26734 G-27210, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Owen F. Jacklin, Dishman, Washington

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 3.8 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.8 cubic feet per second.

4. The point of diversion of said water is SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 6 T50N-R5W

5. The place where said water is used is Lots 1, 2, 3, 4 and N $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 7 SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 6 T50NR5W

December 14, 1961

Re: Permit No. G-26734
G-27210

Owen F. Jacklin,
Dishman, Washington.

Dear Mr. Jacklin:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26734 G-27210. The proofs are to be made at 2:00 o'clock P.M., on the 22nd day of January, 1962, before R. E. Rollis, Post Falls, Idaho, Notary Public.

As of this date we have mailed the Notice to the Coeur d'Alene Press, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

December 8, 1961

Re: Permit Nos. G-26734; G-27210

Owen F. Jacklin
Dishman, Wash.

SEE LETTER IN PERMIT FILE G-27210

Dear Mr. Jacklin:

Enclosed is a form to relinquish a permit if you wish to drop your permit No. G-26734.

Both permits show the same location of the well, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 6 and the same land to be irrigated, Lots 1, 2, 3, 4 and NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 7; SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6, all in T. 50 N., R. 5 W. Permit No. G-26734 claims 3.36 cubic feet per second and Permit No. G-27210 claims 5.44 cubic feet per second to irrigate approximately 440 acres. The total amount of water 8.80 cubic feet per second provides one miner's inch per acre of land, the maximum amount allowable.

You can prove completion of works and beneficial use of the water under both permits in one advertized legal notice by showing the amount of water under each permit and the different dates of priority for each permit in the notice. Two sets of despositions, one for each permit, would have to be completed when the depositions are made according to the notice of proofs. Or you can relinquish Permit No. G-26734 and make the proofs on the later permit. It depends upon amount of water diverted and the value of the earlier priority. The amount of water licensed cannot exceed the amount claimed on the permit.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G- 26734

Date: Dec. 1, 1961

Owen F. Jacklin
Jacklin Seed Co.
Dishman, Wash.

Dear Mr. Jacklin:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 26734 are due not later than **Feb. 8, 1962**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

EPR:nls
Enc.

26734

January 6, 1958

Mr. Owen F. Jacklin
Jacklin Seed Company
Dishman, Washington

Dear Mr. Jacklin:

Apparently you misunderstood my letter of December 18th.

The law does not permit increasing the amount of water on any permit nor allow a filing as an addition to an existing permit. Any addition to Permit No. G-26734 will have to be by a new permit.

Accordingly I am returning the one you filled out and also one blank form.

It is necessary to fill it out as you did the original one, then submit it with the necessary fees to the department, even though it is for water from the same well, it is a new permit with a different priority date.

I suggest that you make it appurtenant to the same lands as that included in the amendment, then all the water of the well will be appurtenant to all the land on which you use it.

If you have sufficient water and facilities to deliver an inch to the acre, you should file for 5.44 cubic feet per second on a new permit. Fees for same amount to six dollars and twenty-five cents.

Proofs may be made simultaneously on both permits and thus cut down some on your publication fees, that is providing your irrigation set up is complete.

Very truly yours,

MARK R. KULP

Gentlemen:

Reference is made to past letters on permit G-26734.

Enclosed is application for permit to appropriate additional water from the existing well on permit G-26734.

Apparently Lee Reynolds permit No. 23755 will be cancelled February 27, 1958, so if we do nothing it will be terminated and non-existent.

The Kennett deal is on Permit No. 23963. It has been transferred and will now have to be cancelled or let it terminate.

I hope everything is in order and that we will be permitted to pump the additional water from the well.

Very truly yours,

Application for Amendment
To Permit to appropriate the Public Waters
of the State of Idaho, No. G-26734

RECEIVED
JAN 6 1958
Department of Reclamation

Comes now OWEN F. JACKLIN, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-26734, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

160 acres in the SW $\frac{1}{4}$ of Section 6; 80 acres in the NE $\frac{1}{4}$, 37.28 acres in Lot 1, 42.5 acres in Lot 2, 36.5 acres in Lot 3, and 43.2 acres in Lot 4, Sec. 7, 40 acres NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ Sec. 6, all in Township 50 North, Range 5, West, B.M.,

~~We wish additional water changed from 3.36 cu. ft. per second to 6.72 cu. ft. per second.~~
~~That an additional amount of water is not asked for,~~ making a total of 440 acres
That an additional amount of water is not asked for/ and that the rights of others will not be adversely affected by such change.

Signed at Pishman, this 2nd day of January, 1958
Owen F. Jacklin

Date of receipt at office of Department of Reclamation January 6, 1958

APPROVAL OF STATE RECLAMATION ENGINEER

I, MARK R. KULP, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-26734. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Mark R. Kulp
State Reclamation Engineer

December 18, 1957

Re: Permit No. G-26734

Mr. Owen F. Jacklin
Jacklin Seed Company
Dishman, Washington

Dear Mr. Jacklin:

This is in reply to your letter of December 5, 1957. I am glad that you finally got the well completed and that it is a good well. Things do not always turn out as well as that.

I will take up your points as follows:

- (1) Increase the water on Permit No. G-26734

The amount of water on this or any other permit could not be increased after a permit is granted. It will be necessary to take out another permit covering the additional water from your well providing you wish to obtain license on it. You may use the water from the well on any land you desire.

If you are not particular regarding priority, you can relinquish Permit No. G-26734 and take out a new permit large enough to cover all the water from your well and all the land you use it on or intend to use it on, providing of course, that you are not filing on more than one inch to the acre. You can safely include any land that you expect to purchase and if you do not get it, it automatically drops out of the picture at the time of making proofs.

- (2) Relinquish the water rights from the river on the Lee Kennett and Lee Reynolds places.

We do not know the description of the Lee Kennett place and we only know the land description for Lee Reynolds as found in Permit No. 27355. If you will give us the legal land description of each place, or better still, give the permit or license number, then we can advise you regarding relinquishments.

26734

Mr. Owen F. Jacklin

-2-

December 18, 1957

I have just looked up the record on Permit No. 23755 in the name of Lee Reynolds and find that a notice was sent to Lee Reynolds on December 1st, advising him that proofs will be due on Permit No. 23755 on February 27, 1958.

I must advise you that this department will necessarily correspond with and deal with Lee Reynolds in regard to this permit until such time as there is evidence in the files from Lee Reynolds that he has sold or transferred this permit to you.

- (3) Add the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 6 (40 acres) to the G-26734 Permit.

Enclosed is an amendment form on which you may make application to change the place of use to include any lands you wish.

- (4) Hold balance of the SE $\frac{1}{4}$ of Section 6 on record until the February 8, 1962 completion date for Permit G-26734.

I suggest that you amend G-26734 to include the SE $\frac{1}{4}$ of Section 6 and/or include it also in the additional application for permit. If you do not buy that land nor put any water on it will be excluded from the license at the time it is issued.

I am returning the map and other forms you sent in and also sending you a blank form for use in filing on the balance of your land and water.

If this does not give you the information you desire, do not hesitate to write again for additional information.

Very truly yours,

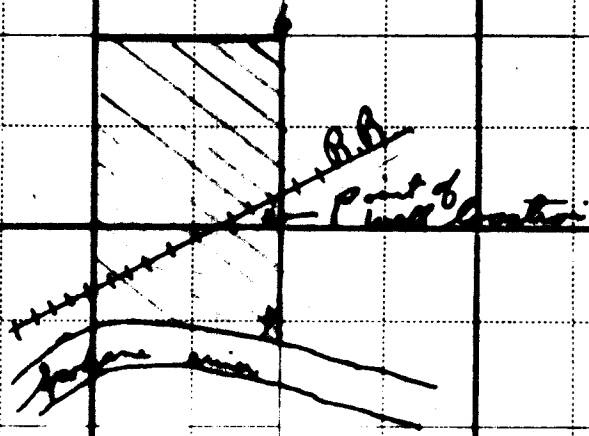

MARK R. KULP
State Reclamation Engineer

Re: Permit #G-26734

Dear Mr. Humphrey:

Thanks for your nice letter of August 19, 1957 regarding the various permits etc., on our property in Section 6 & 7 T50N R5W.

Since visiting with you we got the pump running and irrigated from it. We surely got a nice well and a nice operating pump. We also bought the 40 acre tract (NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Sec. 6) that I had on option when you were here. Also we have an option on the balance of the SE $\frac{1}{4}$ of Sec. 6.

The above deals are all in line to be watered from the well on Permit #G-26734.

Before relinquishing the permits etc. to Lee Reynolds and Lee Kennett to you, we should increase the water from our well to 3000 G.P.M. to take care of the additional land. Also I shouldn't finally get water rights for the land until we do get it bought.

Would you please outline a plan to work on to:

1. Increase the water on Permit #G-26734
2. Relinquish the water rights from the river on the Lee Kennett and Lee Reynolds places.
3. Add the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Sec. 6 (40 acres) to the G-26734 Permit.
4. Hold balance of the SE $\frac{1}{4}$ of Sec. 6 on record until the February 8, 1962 completion date for permit G-26734.

Thanks for your patience and help in keeping our many deals straight.

Very truly yours,

JACKLIN SEED COMPANY

Mr. Owen F. Jacklin
Jacklin Seed Company
Dishman, Washington

Dear Mr. Jacklin:

Enclosed is an amendment which you may sign and return, together with a map to show you the property description.

We have sent this in compliance with your verbal request to me on July 29, 1957, when I made the inspection in connection with your Permit #G-25758.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. 23755

Mr. Owen F. Jacklin
Jacklin Seed Company
Dishman, Washington

Dear Mr. Jacklin:

As you requested, I have checked the Lee R. Reynolds right to pump from the Spokane River and find that it is under Permit No. 23755.

In order for you to divest yourself of this right, the following should be done:

1. Send to this department an assignment duly executed from Reynolds to you.
2. Then send a relinquishment from you to the State of Idaho.

We have enclosed blank forms for the assignment and relinquishment, mentioned above.

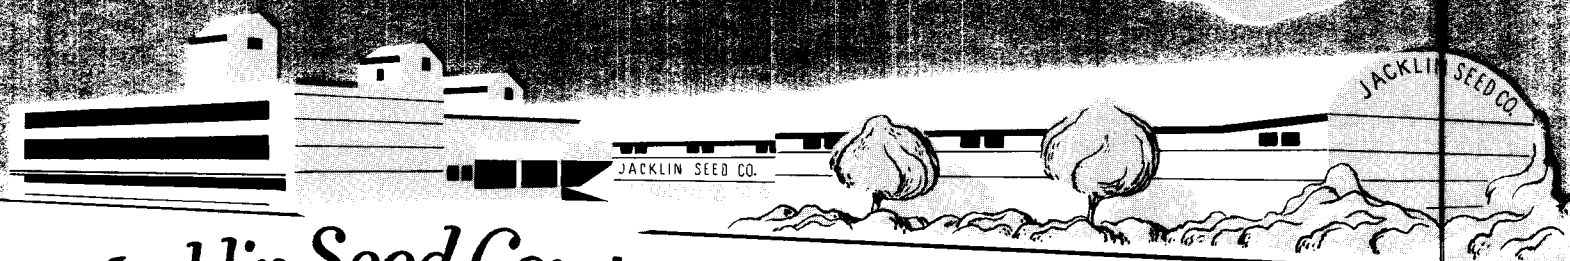

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Gentlemen:

On January 29, 1957, I mailed you an application for permit to dig a well in the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec 6 Twp 50 Rnge 5 in Kootenai County.

To date we have not heard from you. We would like to get started digging the well as soon as possible so would appreciate an early, favorable reply to our application.

Very truly yours,

JACKLIN SEED COMPANY

Attention: Mr. Owen F. Jacklin

Dear Mr. Jacklin:

In reply to your letter of January 22, 1957, we enclose a form of application for permit to appropriate subterranean water from a well together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of Completion of Works and application of the water to Beneficial Use are required. The time required for making these proofs should be indicated under Question 10.

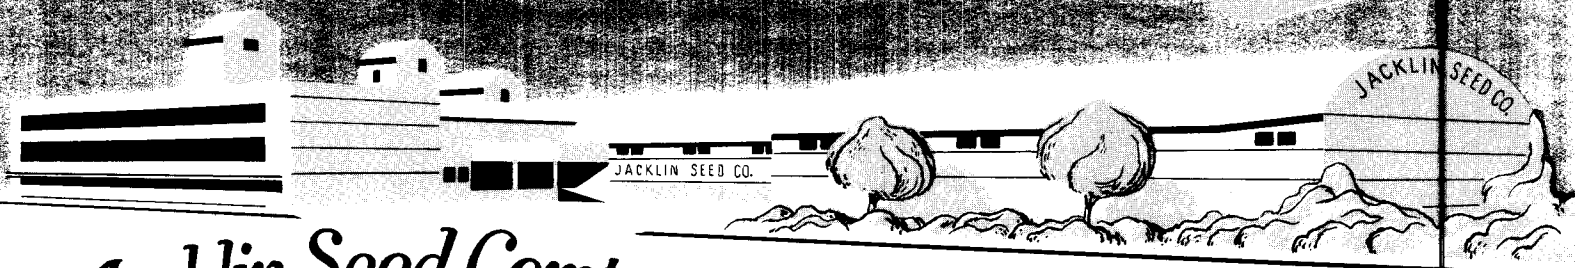

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Gentlemen:

I recently purchased a farm in Kootenai County with a water right on part of the land for irrigation from the Spokane River.

I would like to drill a well and irrigate the whole farm. Would you outline a plan whereby I could get a permit to put the well in and still hold the present water right until the well was completed and in use.

Also please send the necessary papers for application for permit to drill the well.
