Re: Permit No. **G-27210**

Owen P. Jacklin
Dishman, Washington

Dear Mr. Jacklin:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. **G-27210** shows the well is (are) capable of conveying ³⁰⁰ ~~1.92~~ miner's inches, or **1.92** c.f.s. of water for the irrigation of ⁹⁶ ~~480~~ acres.

Upon receipt of the statutory fees, totaling \$ **5.00**, which consists of a Completion of Works fee of \$ **5.00** and License and Certificate of Water Right fee of \$----- based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of **January 23, 1958** to the use of **1.92** second feet of subterranean water with the point of diversion in the **SE $\frac{1}{4}$ Sec. 6** for irrigation of **480** acres in the **NW $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 6, Lots 1, 2, 3, & 4, NE $\frac{1}{4}$ Sec. 7, T. 50 N., R. 5 W., B.M.**

Since your permit does not include the **SE $\frac{1}{4}$ Sec. 6** it will be necessary to amend the land list on the permit if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above.

If you do not want the extra land included, the statutory fees will total \$27.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Very truly yours,

Owen F. Jacklin,
Bismarck, Washington.

Dear Mr. Jacklin:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26734. The proofs are to be made at 2:00 o'clock P.M., on the 22nd day of January, 1962, before R. E. Rollis, Post Falls, Idaho, Notary Public.

As of this date we have mailed the Notice to the Coeur d'Alene Press, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Re: Permit Nos. G-26734; G-27210

Owen F. Jacklin
Dishman, Wash.

Dear Mr. Jacklin:

Enclosed is a form to relinquish a permit if you wish to drop your permit No. G-26734.

Both permits show the same location of the well, SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 6 and the same land to be irrigated, Lots 1, 2, 3, 4 and NE $\frac{1}{4}$, Sec. 7; SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6, all in T. 50 N., R. 5 W. Permit No. G-26734 claims 3.36 cubic feet per second and Permit No. G-27210 claims 5.44 cubic feet per second to irrigate approximately 440 acres. The total amount of water 8.80 cubic feet per second provides one miner's inch per acre of land, the maximum amount allowable.

You can prove completion of works and beneficial use of the water under both permits in one advertized legal notice by showing the amount of water under each permit and the different dates of priority for each permit in the notice. Two sets of dispositions, one for each permit, would have to be completed when the depositions are made according to the notice of proofs. Or you can relinquish Permit No. G-26734 and make the proofs on the later permit. It depends upon amount of water diverted and the value of the earlier priority. The amount of water licensed cannot exceed the amount claimed on the permit.

Very truly yours,

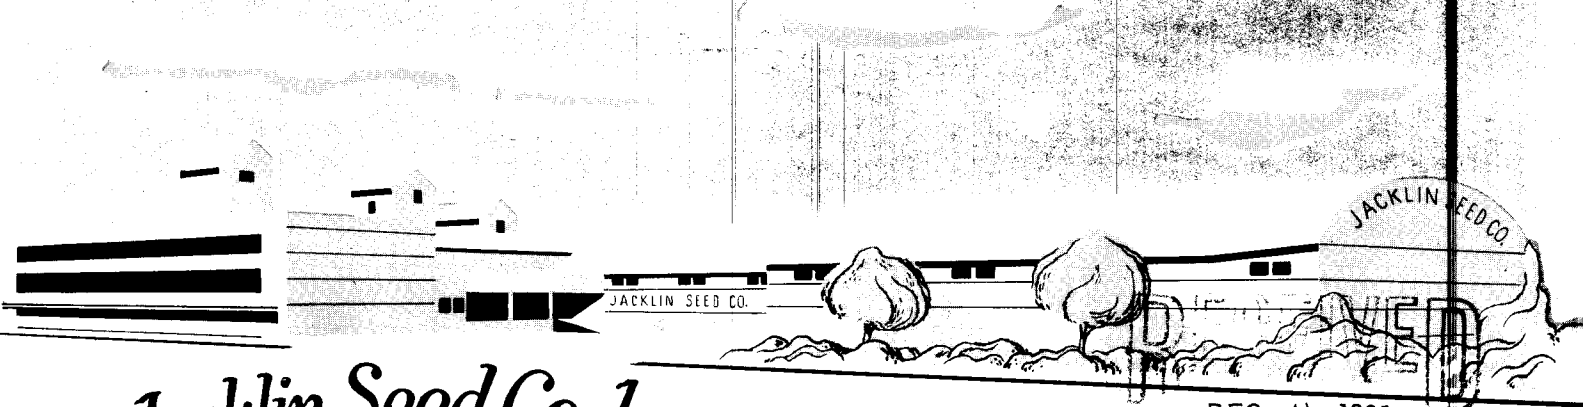

GEO. N. CARTER

Attention: Geo. N. Carter

Gentlemen:

Thanks for your letter of December 1, 1961 regarding proof of Completion of Works and Application of Water for Beneficial Use on Permit No. G-26734.

A change in the permit was made and approved January 27, 1958 on Permit No. G-27210, with completion date January 27, 1963. That, I believe, would cancel permit No. G-26734.

The well is all completed and we will send in the forms right away on the new permit No. G-27210, not on G-26734. Is this correct and in order?

Please advise.
