WATER RIGHT LICENSE

License of Water Right No. 95-7009 Priority Nov. 14, 1967 Amount 5.55 cfs

THIS IS TO CERTIFY, that LYLE G. JACKLIN
of Dishman, Washington, has complied with the terms and conditions of Permit
No. 95-7009 issued pursuant to Application for Permit dated November 14, 1967,
and has submitted proof to the Department of Water Administration on January 26, 1973,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 5.57 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use &
established a right to use water as follows:

Beneficial Use	Period of Use		Rate of Diversion		Annual Volume
<u>Irrigation</u>	from <u>April 1</u>	to <u>Oct. 15</u>	at <u>5.55</u> cfs and		<u>1,299 acre feet or</u> <u>3.5 af per acre</u>
	from _____	to _____	at _____ cfs and		
	from _____	to _____	at _____ cfs and		

(both dates inclusive)

Subject, however, to the condition that no more than 5.55 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1,299 acre feet per year, said waters to be diverted within the SE¹/₄NW¹/₄ of Sec. 19,
Twp. 51 N, Rge. 4 W, B. M. in the County of Kootenai

RE: Application for Permit 95-9276

Dear Ms. Walker:

I apologize for the delay in responding to your letter dated July 22, 2005 regarding my Application for Permit # 95-9276. My schedule has taken me away from home for an extended period this year and I only recently received your correspondence for review.

By way of explanation, the circumstances regarding this Application of Permit, and existing permits #95-7009-Lyle Jacklin, and #95-9197-Michael Andrews are as follows:

I purchased the 10 acre parcel for which permit #95-9197-Michael Andrews was previously issued several years ago. I researched the status of the property with regards to water rights and learned through the Department of Water Resources office in Coeur d'Alene that it was previously covered under the Jacklin permit #95-7009. I was advised that I could request a transfer of a portion of this right, but I was also made aware that the right may have lapsed for my acreage if it had not been irrigated in the past 5 years.

Based on this information I made inquiries but was unable to establish to my satisfaction that irrigation had occurred within the specified time period. Although the existing permit had the advantage of rights of seniority, because I couldn't find anyone who could verify that irrigation had occurred, I felt that prudence dictated that I apply for a new water right.

After submitting the application, I received a letter from the Department of Water Resources informing me that my parcel was previously covered under the Jacklin permit. I was instructed to reply if I wanted to acquire an interest in this previous right, otherwise a new permit would be issued. Since, as previously noted, I had concerns about the validity of the Jacklin permit with regards to my acreage, I simply did not reply and waited to receive the permit #95-9197.

I also became interested in acquiring the 10 acres adjacent to my existing acreage which I intended for agricultural purposes also. I learned that although my well could be drilled and serve this additional anticipated volume, that it was critical to know for certain how much water would be used to size the pump(s). Although the well was drilled, this created a delay in pump installation while I resolved the issues related with acquiring the additional property.

- 2 -

November 3, 2005

Finally this summer I was able to acquire the adjoining 10 acres and would like to complete the installation of the pump set and irrigation piping installation for use on both properties right away. Before doing so however, I first needed to ensure that I had a valid water right for the new property as well.

The situation with the new property is identical to that of the first. While this parcel too is covered under the Jacklin permit, I know from my own observation that there is an even greater certainty that this parcel has not been irrigated during the past 5 years. Consequently I applied for a new water right, just to be certain that I would not be diverting water without a valid license.

I again apologize for the delay in getting this information to you. The delay was not from any lack of interest on my part, on the contrary I would like to have the system ready to use as soon as possible, but simply that due to my extended absence I did not receive the notification until very recently. If you can assist me in completing this application process it would be most appreciated.

Sincerely,

Mike Andrews

Dear Mr. Jacklin:

A representative of this Department has made an examination of the works covered by your Permit No. 95-7009 and has found the following:

Quantity of water diverted: 5.57 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 5.55 cfs

The maximum quantity diverted shall not exceed 1,299 acre feet per year.

Beneficial use: For irrigation of 371 acres within the N 1/2, N 1/2 SW 1/4, Sec. 19, Twp. 51 N, Rge. 4 W

Point of diversion: SE 1/4 NW 1/4, Sec. 19, Twp. 51 N, Rge. 4 W, B.M.

Priority date established: November 14, 1967

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Dear Mr. Higginson:

Section 5. a) regarding the amount of water and use to which it has been applied is somewhat erroneous. The measurements submitted on the permit are actual meter readings, however, this reading does not reflect an accurate rate of use.

Jacklin Seed Company has installed six (6) Sparling meters in the last three years. All have experienced maintenance problems related to fiber-glass bearing frames, cases and collars. This has resulted in intermittent frozen gears and inaccurate readings. The problem should be rectified this year with installation of stainless steel bearing parts.

Attached is estimated usage chart which I suggest be used rather than actual meter readings.

Dear Mr. Jacklin:

One of the conditions of approval of your water Permit No. 95-7009 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Dear Mr. Jacklin:

We are returning your application for permit. Prior to processing your application we will require some additional information.

Please complete Items 6a and 6c of the application. Also it is noted that under Item 3b, the land list and the lands irrigated that you have listed 390 acres located in the NE $\frac{1}{2}$ and the NE $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 19, T. 51 N, R. 4 W, R.M. However, your map only shows 230 acres of land located in the NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, and the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 19, T. 51 N, R. 4 W, R.M. Please correct either Item 3b or the map.

You are requested to return the application promptly so that we may proceed with the processing of the same. Please contact us if you have any questions in the manner.

Very truly yours,
