RE: Assignment of Permit received 1/11/07

Assignment of Permit for WR permits 77-14235, 77-14236, 77-14237, and 77-14238 was received by the Western Region office Jan 11, 2008. Owner completed only one form for all four water right permits, but paid the applicable $25 fee for each assignment, total of $100. Due to the fact that the Assignment of Permit for each water right referenced is to be from the same current owner to the same new owner and the applicable fees were paid for each, the one completed form was accepted for the four assignments. The original Assignment of Permit form will be filed in the water right file for 77-14235. A copy of the original Assignment of Permit form will be filed in the remaining three water right files 77-14236, 77-14237, and 77-14238.
