Subject: Blue Lakes Country Club Water Supply Bank applications

Noreen,

I spoke with Attorney Travis Thompson and Cindy Yenter today regarding the extension of the Blue Lakes Country Club lease and rental applications. The applicant has leased and rented their rights to the bank for four years. Travis submitted a request to extend the lease/rental for an additional five years on behalf of the owners. Jeff Peppersack, Cindy and I are all in agreement that the transaction will need to be advertised and put before the Water Resource Board before approving rental of the rights beyond five years. Cindy indicated that she is familiar with the applicant's water use practices and approves of a one year rental. I informed Travis that we are prepared to process a rental application for one additional year, and suggested he ask his clients whether they intend to file a transfer application or wish to pursue long-term use of the bank. He asked that we process the rental application for the 2007 irrigation season and indicated that he would discuss options for the future with his clients.

You can begin preparing lease and rental approval documents for 2007. Please put a copy of this e-mail in the water right files for future reference.

Thank you,
Cynthia
