Re: Application for Permit #22-13265 for City of Victor

Good Afternoon Sharla:

Our office reviewed the above water right application for permit from the IDWR New Water Rights filing report dated November 26, 2007 (copy attached).

Our MTP (copy attached) indicates the following may be missing a lot number:

POU: T03N R45E S02 NENE NWNE

BLM does not have a problem with this application for permit; we are just providing this for your information.

Thank you. Have a nice day!!!!

Lin Pierron-Buck

Conditions of Approval:

1. 124	Place of use is within the service area of the City of Victor municipal water supply system as provided for under Idaho Law.
2. 048	The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
3. 01M	After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
4. 022	The daily diversion volume for non-domestic uses under this municipal right shall not exceed 2,500 gallons per use and the daily diversion volume for domestic uses under this right shall not exceed 13,000 gallons per dwelling in accordance with Section 42-111, Idaho Code.
5. 046	Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
6. 102	The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
	In connection with the proof of beneficial use submitted for this permit, the permit holder shall also submit a report showing the total annual volume, the maximum daily volume, and the

7. maximum instantaneous rate of flow diverted from the point of diversion authorized for this permit during the development period. The report shall also show the maximum instantaneous rate of diversion, either measured or reasonably estimated by a qualified professional engineer, geologist, or certified water rights examiner, for the entire City of Victor municipal water system. The report shall also describe and explain how water diverted under this permit provides an additional increment of beneficial use of water for the City of Victor municipal water system. 8. 075 Irrigation of large projects such as parks, golf courses, or sports activities fields is not authorized under this right. 9. 26A Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
