

MEMORANDUM

Date: December 27, 2007
To: Water Right File 69-11522
From: jharris
Re: Permit Review

Permit review finds application to be approvable with appropriate conditions. Was not protested, the proper letters were sent to notify IDFG and IDL. The POD is located on IDL land, letter was received from Chris Clay from IDL stating they did not have any comments to add and that the application looked fine. Conditions regarding right of way access (004) and lower snake salmon mitigation (121) were included. Applicant requested a five year development period due to the difficulty of accessing the area (only by boat)
