

MEMO to file      TRANSFER 74159

From Dave Carlson   12/28/2007

This transfer 74159 was submitted in the group of pope ditch transfers.

This water right 75-4089 recommendation is not a part of the pope ditch point of diversion change.

This recommendation is for a different point of diversion and I talked to Paul Edwards, applicant and Bob Foster IDWR Salmon, they agreed that this Transfer was filed in error and should be withdrawn.

Paul Edwards also signed and returned a letter requesting the transfer should be withdrawn.
