**RE: APPLICATIONS FOR PERMIT 51-12999, 51-13000, & 51-13001 AND
APPLICATION FOR TRANSFER 73952**

Dear Ms. Hoffstetter:

In the processing of the above applications, it was decided that we could not process the transfer application as filed. I spoke with you about making some minor changes to allow the processing to continue, and you ask that I work with Norm Young of ERO Resources Corp.

Mr. Young and I met several weeks ago, and discussed the application and the proposed changes. At the time, Mr. Young seemed to think that the changes were reasonable, and would not adversely affect the integrity of the application. Mr. Young told me at that time that he would contact you to discuss the proposed changes. Mr. Young stated that it should be you that make the final decision on whether or not to make the changes.

Unfortunately, I have not heard anything further on the possible changes to the application. Our office cannot proceed with processing without direction on this issue. Our office must proceed with processing or void and/or reject or deny the applications.

Please submit the requested information to allow final evaluation of your applications to be completed. You may seek additional time to provide the information by making a written request to delay or interrupt processing. Your written response including the requested information, or a request for more time to seek the information, must be received by 12/17/2007. The applications will be voided and the application for transfer will be rejected or denied without a timely reply.

If you have any questions or concerns please contact me at the above address.

Respectfully,

Daniel A. Nelson
Sr. Water Right Agent
