Re: transfer evaluation

This transfer proposes to change the place of use for three separate groundwater irrigation rights into one larger place of use and use two existing irrigation wells. The new place of use is within the same 40 acre QQ as the old places of use. One of the wells is at the center of the 40 acre QQ, cant place it in a ten acres tract.

Authority to File:
Applicant is the owner of record as far as the SRBA decree.

Water Right Validity:
These water rights were decreed in the SRBA in 2004. Forfeiture is not an issue.

Injury to Other Water Rights:
Not within the ESPA area and not in Water District 120. Within the old ESPA model grid. The new wells are within the same cell, no groundwater model analysis is needed.
Transfer will be advertised to determine any protests.

Enlargement of Use:
There is no evidence of enlargement of use.

Local Public Interest:
No issues identified.

Beneficial Use / Conservation of Water Resources:
No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
