Re: Application for Permit No. 37-21297

Dear Mr. Arkoosh:

The Department of Water Resources acknowledges receipt of your application for a water right permit. The application has been assigned the above reference identification number; please refer to this number in all further correspondence.

A legal notice of the application has been scheduled for publication in the Lincoln County Journal, Idaho Statesman, Lewiston Morning Tribune, Post Register & Times News on 6/3 & 6/10/04. A period of ten days following the second publication will be allowed for the submittal of protests. If the application is protested you will be notified and sent a copy of all protests filed.

In order to continue processing of your application, the Department needs the following additional information, pursuant to Rule 40.05 of the Department's Water Appropriation Rules (IDAPA 37 Title 03 Chapter 08).

A comment letter from Lincoln County needs to be submitted addressing the effects of the construction and operation of the proposed power generating facility.

Additional information needs to be submitted relating to the probability that financing will be available to appropriate the water and complete the proposed development. A financial commitment letter from a lender along with a financial statement of the lender would satisfy this requirement.

The required additional information must be submitted within 30 days after the final date for receiving protests (**June 21, 2004**). The time may be extended upon request and showing of good cause that additional time is required to submit the information.

Sincerely,

Corey Skinner
Dam Safety Engineer
