RE PROBLEM e PROJECT

MARV MEYER, general contractor for project,

called - problem to resolve:

- project based on wells e 40' deep
- scheduled driller dropped out (CUNSO)
- New driller said won't get yield needed if just drill to 40' (STEVENS) - driller familiar with that site re other nearby wells he has drilled ("M-k", new water center etc.)
- MARV trying to determine probable depth needed
- will submit something e this to modify existing & pending approvals with IDWR

WAIT to get clarifications on this before
continuing with processing.
