Re: Transfer Review

This right was split from 27-11990 that originally covered 38 acres in the SESE of Sec. 9 T1S, R37E. The applicant purchased a five acre parcel within that 38 acres, so the transfer will update the POD from the NESESE of Sec. 9 to a place on their property still within SESE of Sec. 9. Proper documentation was provided for the split to take place, this was advertised without protest, so recommend for approval.
