PART 1

8. General Information:

- a. Description of diversion system: An 8-in mainline will run from each of the wells to smaller branches of the mainline that run throughout the farm
- b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? ☐ Yes ☒ No If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.
- c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer: No changes will be made to the place of use.
- d. Remarks: New well will be drilled near the road for easy access to the existing power supply. Both wells will be used to provide the full water right decreed in 2004. The legal description of the place of use decreed was entered incorrectly. The NESW of Sec 18 was listed twice when in fact one of the listings should have been the SENW of Sec 18. The boundary for the place of use that is on record with IDWR accurately represents the irrigated ground. It is proposed that the description be corrected to reflect the actual place of use irrigated. The place of use is a church farm. Contact information for the Farmland Reserve, Inc.
