Re: Permit Review

WD-73

This POU is within W&S area. Added to spreadsheet.

Protest resolved through preliminary order.

Conditions from order added to permit.

This was not advertised as a W&S ap and the additional information for being in a W&S area was not obtained however the protest hearing provides sufficient information.

Recommend for approval

Entry on the Wild + Scenic database is not required because this application was received before Sept. 1, 2003. I removed it from the list.
