CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **November 1, 2009**.
2. Subject to all prior water rights.
3. Stockwater use is for 250 range cattle.
4. This right, when considered with all other rights common to the same grazing allotment, is limited to the quantity of water beneficially used by the number of stock within the allotment.
5. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 73.
6. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.

State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 73-11973

7. Upon specific notification by the Department, the right holder shall install a lockable device of a type acceptable to the Department in a manner that will provide the watermaster suitable control of the diversion.
8. A float or sensor shut-off system shall be installed on each of the water troughs described as a place of use by right nos. 73-11973 and 73-2209. When the water level in the water trough reaches a level considered full but not overflowing, the float or sensor associated with each water trough shall activate the necessary mechanism to close a valve in the pipe delivering water to the trough.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 12th day of December, 2007.

for DAVID R. TUTHILL, JR., Director
