Re: Evaluation Memorandum

This transfer proposes to resolve an objection by the BLM to the SRBA recommendation by transferring 3 acres of the place of use off of land administered by the BLM to land owned by the applicant.

It has been determined that this transfer will not result in a hydrologic change. This transfer will not be advertised.

Authority to File:

IDWR records indicate the applicant is the owner of the right to be transferred, and the property to which the Place of Use will be transferred.

Water Right Validity:

This water right was recommended in the SRBA. Air photos from 2006 show it to be irrigated. Forfeiture is not an issue.

Injury to Other Water Rights:

The transferred water right is not contained within a water district

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
