Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Mr. Gerken:

The Idaho Department of Water Resources is returning your application since it's incomplete due to the following reasons:

Item #2 Source of Water

Lake Pend Oreille is tributary to the Pend Oreille River and must be so noted on the application.

Item #3 Point of Diversion

The Township, Range, Section, Quarter Quarter and County must be completed on the application.

Item #4 Use and Purpose

The application indicates a desire to irrigate 1 acre of lawn and garden. The allowable allotted diversion for this would be 0.03 cfs (13.5 gallons per minute) not the 0.2 cfs as shown on the application. Please make the necessary changes on both Item #4 and Item #5 on the application. Also, the irrigation season for this area runs between April 1st and October 31st. Please fill in the provided space for the time of use.

Item #7 Time Required for Completion

Normally the applicant has from 1 to 5 years by which to prove up on a permit before it goes to a license. Please indicate the number of years required to complete the works to put the water to beneficial use.

Item #9 Place of Use

This section needs to be completed by the applicant. The State's database shows the property is located within the SE¼ of the NW¼, of Government Lot 3, Township 57 North, Range 2 West, Section 12.

COPY

Map

I have enclosed an aerial photograph outlining the place of use and show a possible location of the point of diversion. Please confirm the accuracy of this map, when you resubmit the corrected application.

Please submit the requested information within the next 30 days so as not to delay the processing of the application. If you have any questions, feel free to contact me at this office.

Sincerely,

Keith E. Franklin
Senior Water Resources Agent
