DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP NOV 07 2007

Please print or type. Attach pages with additional information. Instructions are included at the end of this form. WATER RESOURCES
WESTERN REGION
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided, if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
67-10147		NO			

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
 PLAT OF PROPERTY or SURVEY MAP clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) are for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former Owner/Claimant(s) CARLOS L. POST AND LAURA POST
1267 SOUTH CRANE ROAD, MIDVALE, ID 83645

5. Date you acquired the property 10/25/2007

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

Crane Creek Individual Allotment #260

Appendix 25

Crane Creek Individual Allotment

260

Current Allotment Administration:

The Crane Creek Individual Allotment consists of approximately 670 acres of public land intermingled with approximately 54 acres of private land. One operator currently runs cattle in the allotment and is authorized on the public land with 36 cattle from April 11 to June 26 for a total of 91 AUMS and 107 cattle from November 1 to November 15 for a total of 53 AUMS each year.

A total of 143 AUMS are permitted for cattle on the 670 acres of public land. This computes to a 4.7 Ac/AUM stocking rate for the Crane Creek Individual Allotment. Actual use has remained fairly consistent over the last several years at approximately 143 AUMS being authorized each year. Last year, due to drought conditions, only 88 AUMS were authorized on the allotment. The ten year average of AUMS harvested in the Crane Creek Individual Allotment is 138 AUMS.

The allotment's northern boundary line is Crane Creek Reservoir. There are three unnamed drainages within the allotment on public land. There are no known interior cross fences crossing the public land within the allotment boundary.

The Crane Creek Individual allotment is generally meeting Idaho Standards for Rangeland Health and Guidelines for Livestock Grazing Management. Management goals should be towards maintaining and enhancing the current conditions on the public land.

Standard 1 (Watersheds):

There are a total of 724 acres included within the Crane Creek Allotment. Of this total 93% is public land, and 7% is private.

On July 10, 2001 three field assessments were completed on the allotment. The following ecological sites were mapped on the allotment, and their approximate percentages and disturbance phases on public lands are listed:

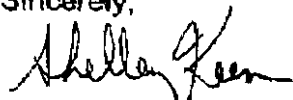

- Loamy 12-16" (B10-7): 134 acres, 100% Moderate Disturbance
- North Slope Loam 12-16" (B10-10): 87 acres, 100% Lightly Disturbed
- South Slope Loam 12-16" (B10-19): 47 acres, 100% Moderately Disturbed
- Very Shallow 12-20" (B10-2): 403 acres, 100% Lightly Disturbed

To examine the watershed indicators in the Indian Valley watershed, all ecological sites were lumped into moderately deep to deep loam soils, and shallow to very shallow stony soils. The results are displayed in the following tables by site stability indicators, and hydrologic function indicators, then by ecological grouping, and disturbance level. Tables are as follows:

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen
