PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 95-9134

Dear Permit Holder:

The department received a proof of beneficial use ("proof") form for the above referenced water right permit. However, the department's records reflect that only Mark Keifer is the permit holder and Mark's signature must appear on the proof form for the department to accept it. Also, during my review of the proof I found some of the information you provided is unclear. This letter is to request additional information or clarification specifically regarding, (1) to obtain Mark Keifer's signature on the proof, (2) verify your correct mailing address, (3) verify who the permit holder or permit holders are, and (4) the current irrigation use. For your reference, I am enclosing a copy of the permit, which reflects the department's record and a blank proof form for your convenience if you prefer to file an amended proof.

The following paragraphs explain more about the need for clarification.

Section 42-248, Idaho Code, requires water right owners to maintain current ownership and address records on file with the department. If you wish to make changes to the department's record for this permit, I am enclosing two forms, a Change in Address and an Assignment of Permit. The Change in Address will correct or change the address the department maintains for you. Please indicate the address where mail should be delivered. Using the Assignment of Permit you can add Karol Keifer to this water right by assigning from Mark to Mark and/or Karol. Please file these forms with the Department to authorize these changes and a \$25.00 filing fee must accompany the Assignment of Permit.

This permit is for a domestic use only. A basic domestic use has a provision for ½ acre or less of irrigation. However, this permit does not authorize irrigation of 2 acres as indicated on your proof. If you have other water rights that cover the 2 acres, then a response is not necessary. If you do not, you should contact the Northern Regional office for more information.

Mr. Kiefer

Additionally, the filing fee you paid will be refunded because it is waived for permits having a ground water source and have a total rate of diversion of 0.04 cfs or less, according to the instructions and fee schedule attached to the form.

If you have questions, please contact the Northern Regional Office of the department in Coeur d'Alene at (208) 762-2800, or myself at (208) 287-4942.

Sincerely,

A handwritten signature in cursive script that reads "Deborah J. Gibson".
