**CONDITIONS OF APPROVAL**

1. The issuance of this right does not grant any right-of-way or easement across the land of another.
2. A fish screen of 1/4 inch or smaller mesh shall be installed and maintained at the point of diversion. The approach velocity at the point of diversion shall not exceed 0.5 feet per second.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.
4. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and sealed this 27th day of November, 2007.
