RE: Ownership Of Land Covered By Water Right 45-7045

There has been a question as to the ownership of this land, as the taxlot data in ArcView says that Mitsuo Inouye owns it. He filed a transfer in 2000 to add a well to this farm, but then sold the land to Stokers. We accepted this fact as part of the approval of T69553, so this water right is already under the Stokers. I just called the Cassia County assessor, who confirmed that Lavel, Wendy, Brent and Marla Stoker own this property. They are the applicants for T73344, so their legal right to transfer this water right should not be in question.
