

Memorandum

February 12, 2003

From: Allen Beardslee

Re: 94-7389

I called Mr. Branstetter to talk with him about the progress he has made gathering additional information that was requested during our meeting last spring.

He said that they would like to request an additional year to monitor Gold Creek and would send us a letter.

We also spoke of our request for additional information pursuant to Rule 40.5. Mike said that he would respond to our request as soon as he had time.
