PROOF ACKNOWLEDGMENT LETTER

Re: Permit No. 96-9296

Dear Permit Holder:

The department acknowledges receipt of the Proof of Beneficial Use form ("proof") and the license examination fee for the above-referenced water right permit. Enclosed is an order that reinstates this permit, since proof and the license examination fee were submitted after the proof deadline. Please note that the priority date for this permit has been advanced to September 2, 2006, as provided in Section 42-218a(2), Idaho Code. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water according to the conditions of the permit.

Well Construction Rules of the Department require that a drilling permit be obtained prior to construction for this type of well(s). According to our records this well was drilled based on a start card that is appropriate for a single family home with a diversion rate of 0.04 cfs or less. Therefore, there is an additional drilling fee because of the increased use of this well, in the amount of \$125.00. Failure to pay this fee may be cause for cancellation of this water right. Please submit this fee to the Department along with a note of reference identifying the drilling permit or water right number.

Be advised that Section 42-248, Idaho Code, requires you as the owner of water rights to maintain current ownership and address records on file with the department. For your information, forms to file a change of ownership of a water right, or a change in the address of the water right owner are available from any department office or from the department's website: www.idwr.idaho.gov

If you have any questions, please contact either the **Northern** Regional Office of the department in Coeur d'Alene at (208) 762-2800.

Sincerely,

A handwritten signature in black ink that reads "Deborah J. Gibson". The signature is written in a cursive, flowing style.
