ATHOL ID 83801

PROOF ACKNOWLEDGMENT LETTER

Re: Permit No. 96-9296

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use ("proof") form submitted for the above-referenced permit. The next step in the process of developing a water right is for the department to conduct the field examination to determine and confirm the use of the water, and that it meets the permitted beneficial use.

Well Construction Rules of the Department require that a drilling permit be obtained prior to construction for this type of well(s). According to our records this well was drilled based on a start card that is appropriate for a single family home with a diversion rate of 0.04 cfs or less. Therefore, there is an additional drilling fee because of the increased use of this well, in the amount of \$125.00. Failure to pay this fee may be cause for cancellation of this water right. Please submit this fee to the Department along with a note of reference identifying the drilling permit or water right number.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov

If you have questions about the field examination, please contact the **Northern** Regional Office of the department in Coeur d'Alene at (208) 762-2800.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau
